// PROFILE

Full Stack Developer with 5+ years of experience building scalable web applications with Node.js, TypeScript, React, and AWS. After a decade in International Business, I switched to tech in 2020 out of a long-standing passion for it. I thrive in collaborative teams that value continuous learning, and I'm exploring how AI tools and agents can improve development workflows.

// PROJECTS

Tukify (tukify.app) · Founder and solo developer

- Multi-tenant SaaS for gyms and studios: members book classes, join waitlists and pay on their own; owners track renewals and attendance. Running in pilot with a live gym.
- Built solo with Next.js, React, TypeScript, Tailwind and Supabase (PostgreSQL with row-level security, Google OAuth).
- Integrated Mercado Pago checkout with webhooks and reconciliation, Web Push notifications and Excel/CSV member import.

// SKILLS

HTML, CSS, JavaScript, React.js, Node.js, Tachyons, AWS · Proficient

Lambda, SQS, SNS, S3, DynamoDB, IAM, API Gateway, CloudWatch, SES, SSM

TypeScript, Next.js, Tailwind, testing, CI/CD, Serverless, GraphQL · Competent

React Native, MongoDB, Web3, Blockchain, Ramda.js, Redux.js, Passport, PostgreSQL · Familiar

// OTHER SKILLS

Scrum · Pair Programming · Git · Figma: dev handoff and design collaboration

// LANGUAGES

Spanish · Native

English · Fluent

German · Conversational

// WORK EXPERIENCE

Full Stack Developer Ssr. · Flybondi 10/2022 - present

- Led the implementation of Club Flybondi's automatic subscription system, increasing member base growth and retention.
- Built a payment integration enabling in-flight credit card sales, increasing onboard revenue and eliminating cash-handling logistics.
- Implemented dashboards, metrics, and alerting using Elasticsearch/Kibana, improving system observability and incident response.
- Contributed to the company's Design System (tokens, typography, icons, atomic components), improving cross-team consistency.

Full Stack Developer Jr. · Flybondi 08/2021 - 09/2022

Full Stack Developer Jr. (freelance) · The Virtual Side 02/2021 - 07/2021

- Developed a P2P app to connect idle parking slots with customers, using React Native, Node.js and MongoDB.

Export Documentation · Lucci Group (Citrusvil S.A. / Viluco S.A.) 03/2014 - 12/2020

Import/Export Specialist · Nestlé Argentina S.A. 08/2010 - 02/2014

// EDUCATION

Coding Bootcamp, Full Stack Web Development · Plataforma 5 2020

International Business Degree · Quilmes National University 2013
